

**Federal Acquisition Institute, Defense Acquisition University, and
Bellevue University Education Agreement**

MEMORANDUM OF UNDERSTANDING

This Memorandum of Understanding ("MOU") is between Defense Acquisition University (DAU), located at 9820 Belvoir Road, Fort Belvoir, Virginia 22060-5565; and Federal Acquisition Institute (FAI) US General Services Administration c/o Defense Acquisition University 9820 Belvoir Rd. Fort Belvoir, VA 22060-5565; and Bellevue University ("BU"), a Nebraska nonprofit corporation at 1000 Galvin Road South, Bellevue, NE 68005. Agreement dated _____, 2006.

Whereas

The Federal Acquisition Institute (FAI) has worked for more than two decades to foster and promote government-wide career management programs for a professional acquisition workforce, and the

Defense Acquisition University (DAU) is supporting the FAI on the development and delivery of educational services to federal agencies and

Bellevue University (BU) is an educational institution that delivers a significant number of college level, credit-granting courses via an online delivery method, BU may develop and deliver degree-oriented courses and certificate courses into certain purchasing and contracting topics of learning with the purpose of supporting the FAI and DAU goals of attracting, developing and retaining a high caliber acquisition workforce.

Proposed DAU/FAI Program

The BU programs covered under this MOU are offered to enhance opportunities to provide courses that fulfill the educational requirements of FEDERAL GOVERNMENT employees while accepting successfully completed articulated DAU/FAI training programs as credits to fulfill the prerequisite, core and/or elective components of a Bellevue University degree.

For the purpose of this MOU, BU is offering a series of courses and a degree-major closely aligned with the Level I, II and III certification standards described in the DAU education catalog and the Office of Management and Budget Memorandum of January 20, 2006 Subject: The Federal Acquisition Certification in Contracting Program.

Federal government employees may enroll in courses offered by BU. This includes all online courses as well as courses taught at any BU campus in Bellevue, Nebraska. All courses identified in the Bellevue University 2004-2006 Course Catalog are available to federal government employees. From time to time, BU may offer courses that are customized and aligned with the work position requirements of Federal employees.

Examples include, curriculum designed for contracting professionals or IT Project Management personnel.

1.3 Articulation of Courses. As part of the education planning process for each student, BU will evaluate and award credit as applicable to federal government employees who have successfully completed FAI/DAU endorsed education and training programs while employed by a federal agency. Articulation of such FAI/DAU related courses will be applied toward various BU undergraduate and graduate degree programs. BU agrees to evaluate additional training programs identified by FAI/DAU with the goal of providing maximum benefit to federal government employees subject to the accreditation requirements under which Bellevue University operates as a regionally accredited American institution of higher learning.

Courses taken through DAU will transfer to BU's undergraduate degree programs as elective credits. For undergraduate degree programs, the maximum number of elective credits varies depending on program selected; however approximately 46 elective credit hours may transfer to Bellevue University's Accelerated Undergraduate degree programs.

DAU courses accepted at the graduate level applied to Master's degree courses are limited to a maximum of 6 credit hours and require approval from the Dean of the College.

This memorandum sets forth the graduate and undergraduate opportunities that can be applied to the educational requirements for professional certification including educational requirements for individuals desiring to attain the qualifications standards outlined in the DAU catalog, the OPM qualification standard for GS-1102s, and for contracting personnel with regard to achieving certification levels I, II and III as outlined by both DoD and OFPP policies.

BU accepts credits as documented by the American Council on Education (ACE). In addition, academic policies and regulations of BU are understood to apply to the admission requirements for the respective degrees as specified in the BU catalog in effect during the term of admission.

Transfer credits will be accepted by BU according to the *American Council on Education* recommendation table beginning on page 6 of this MOU.

Under this Memorandum DAU and FAI will:

1. Assist BU in the distribution of information regarding transfer opportunities to DAU students.
2. DAU and FAI does not favor one university over another or officially endorse a particular program or university, however, DAU and FAI will place information on the DAU/FAI -Bellevue partnership on the DAU and FAI websites to make the information regarding Bellevue programs available as a resource to those members of the DoD AT&L and Federal acquisition workforces who seek professional educational advancement. DAU and FAI will update information on the homepages as changes occur.

BU, DAU, or FAI may use the other party's name or logo in published materials (e.g., website and catalog) to reference this agreement or contact information/links to the others party. Content and text of all promotional information must be approved by each party prior to release.

No agreements concerning the transfer or exchange of any asset of any of the parties is intended or implied by this memorandum. BU, DAU, and FAI are separate and independent institutions and by this memorandum will continue to operate as separate institutions.

Any of the signatory parties reserves the right to terminate, after 60 days prior notice, the articulation memorandum when the interest of that party so dictates, subject to taking all reasonable efforts to ensure that existing students are not adversely impacted in completing their programs of study. Every effort will be made by parties to give 60 days notice prior to effective date of termination and to complete the then-current programs year.

All efforts expended pursuant to the MOU are rendered voluntarily, and each party bears the cost of its own efforts.

This agreement may be amended as needed for a specific program articulation without affecting the currency of the master memorandum.

The administrators of FAI, DAU and BU are authorized to sign, prepare and implement plans of action and procedures necessary to affect this memorandum.
