Nobody can resist the inevitable!
You can't stop my momentum!
That's what you think, you steroidal behemoth! One fastball special should do the trick!
Say hello to my little friend!
Lt Nano flies through the air...
...and splits into a dozen tiny ninjas.
We won't let your bad theories destroy our good practices!*
*Sumantra Ghoshal, Academy of Management Learning & Education, 2005
AHRGG! There are too many!
Your worldview overlooks the self-reflexive nature of estimates! It only costs a lot if you think it will.**
**R. Jackson & J. Dafler, a Slightly Deconstructive Treatment of the Cost Estimating Project, 2008
Nice work, Lt. Nano! You held him off long enough for us to finish the LAR.
The majority of requirements might be satisfied at lower cost using alternative approaches.***
NOOOO!
***SECAF & CSAF Acquisition Improvement Plan, 2009
Looks like he wasn't inevitable after all.
And not very incredible either.
Yeah, more like un-credible!
Oh, Lt. Nano... Ha ha ha ha!
Tune in next time, when we'll hear Cap'n Cannonball say, " Hey guys, wait for me!"
