(800) 878-2940, ext 226

A Word About DTIC '98

This year DTIC is hosting its 25th Annual Users Meeting and Training Conference. The conference will be held at the DoubleTree Hotel National Airport, 300 Army Navy Drive, Arlington, Va., November 2-5, 1998. The agenda is packed full of exciting and relevant topics, as well as an exhibit room overflowing with vendors from every aspect of Information Technology (IT).

"Maintaining the Information Edge" is the theme for the conference, and the sessions are geared to this topic. DTIC '98 will address the information sources and changing technologies that impact those who are involved in Defense Research and Acquisition. We are particularly pleased to announce this year's keynote speakers: Army Lt. Gen. David J. Kelley, Director, Defense Information Systems Agency; Carol Cini, Associate Director, U.S. Government Printing Office; and Richard Luce, Director, Los Alamos Research Library. Louis Purnell, the luncheon speaker, will be relating his exploits during World War II as a Tuskegee Airman.

The Conference offers four days of varied training sessions that enable DTIC users to collaborate on the latest IT topics. Presentations will address the most current issues affecting the research, development, and acquisition communities. Not only will these speakers acquaint you with the latest policy and operational developments, but they will also provide you with practical details on valuable and diverse domestic and foreign information resources, security issues, the World Wide Web, virtual libraries, video streaming, and the storage and dissemination of electronic documents.

Maintaining the Information Edge presents exciting new challenges – DTIC '98 promises to provide the tools to expand your horizons to meet these challenges! For more information, please contact Julia Foscue, the DTIC '98 Conference Coordinator, or access the DTIC Home Page on the World Wide Web.
