

Brigadier General Michael M. Brogan, USMC (Ret)

Brigadier General Brogan retired from the Marine Corps at the end of September 2011 after serving more than 31 years. During his last acquisition assignment from September 2006 to July 2010, Mike served as the Commander, Marine Corps Systems Command. From February 2007 until leaving Marine Corps Systems Command, he performed duties concurrently as the Joint Program Executive Officer for the Joint Mine Resistant Ambush Protected (JPEO MRAP) vehicle program. In his final billet on active duty, Mike was the Commanding General, Marine Corps Training Command, the organization responsible for all primary Military Occupational Specialty producing schools, officer and enlisted, in the Marine Corps. Training Command also prepared Navy Chaplains, Doctors and Corpsmen for service with the Marine Corps.

Mike was a senior vice president, Deputy Business Unit General Manager/Division Manager and program executive for all (MRAP) family of vehicles (FOV) contracts in ManTech International Corporation's Mission Solutions & Services Group (MSS). He is responsible for overseeing group-wide program execution and program management systems. He has Profit and Loss responsibility for the Maintenance and Logistics Services Division of the C4ILOG Business Unit.

Under his leadership, the MRAP FOV contracts team provides rapid assessment and repair of battle-damaged MRAP FOV systems; immediate repair of mechanical failures; and technology insertion, system integration, upgrades, and modification services to enhance and sustain fleet operational readiness. Specific to the route clearance vehicle fleet, the program manages supply and transportation support; performs demand analysis, warehouse operations, management and reporting of logistics data; and redistributes material to right size the repair parts levels at each repair location.

In addition to Commanding Marine Corps Systems Command and JPEO MRAP, Mike's acquisition assignments include: Program Manager of an Acquisition Category ID Program; Product Group Director, Infantry Weapons Systems; Program Manager of a Special Access Program; Survivability Project Officer; and Logistics Officer at the Amphibious Vehicle Test Branch. His operational billets include: Commanding Officer, 3d Assault Amphibian Battalion (AABn); Commanding Officer, Company A, 3d AABn with service in Desert Shield and Desert Storm as part of Task Force Ripper; and Platoon Commander, Company D, 3dAABn including deployment to the Western Pacific supporting Battalion Landing Team 1/3.

Beyond his work at ManTech, Mike is an Intermittent Executive Faculty Member at Defense Acquisition University (DAU) where he teaches in the Defense Systems Management College. He is a member of the DAU Board of Visitors and Chairman of the Board of Directors at H. P. White Laboratory, a ballistics test facility.

A native of Orrville, Ohio, Mike graduated from the University of Notre Dame with a Bachelor of Science degree in chemical engineering. He holds a Master of Arts degree in business from Webster University and a Master of Science degree in National Resource Strategy from the Industrial College of the Armed Forces at National Defense University.
