To Suggest Feedback on an Existing Standard:

1. Provide the existing career field, competency, competency element, product and tasks as written in the eWorkbook.

Existing Standard as Written   Career Field   Standard Number (found in the product)

Competency   Competency Element

Product   Tasks (please provide all)

2. Provide the changes that you are recommending into the Recommended Change blocks provided. Note, you only need to fill in the item changes you are recommending.

Recommended Change to Standard

Competency   Competency Element

Product   Tasks (please provide all)

Rationale for Change (please be concise):

Thank you for your feedback.
We will review your input and make changes if required when an updated eWorkbook is issued.
Proposed changes to either competencies or competency elements will be forwarded to the applicable Functional Lead/FIPT.
Note: contact information provided may be used if further clarification is required.
